

Pursuant to a grant by the Manningham Council Serpell Tennis Club has acquired a Tennis Ball Machine (**ball machine**) for use by its members and guests.

The Spinfire Pro 2 is a revolutionary new ball machine providing unique features not offered by similar machines. Its stylish design allows for a 200 ball capacity while also being extremely portable and compact for storage. Feature packed, it includes:

● Description

- Fully functional remote
- Triple oscillation
- 2 line drill (3 settings - wide, medium & narrow)
- Extreme spin
- LCD display
- Membrane touch panel!

Hiring Policy

- The ball machine, and its specific tennis balls, are available for hire by members and their guests. A rental period is for a minimum of 30 minutes. The cost for 30 minutes is \$5.00 and includes use of the ball machine, balls and power cord. Access to an instruction card is provided.
- The renter is to collect all balls and place in the hopper, return the machine, balls, remote control, extension power cord and instruction card to the clubhouse at the conclusion of rental period.
- All renters MUST read the instruction guide before using the machine
- All renters MUST collect and return all balls to the hopper or box at the conclusion of their rental period.
- The ball machine can be hired for greater than 30 minutes, in 30 minute periods, e.g 1 hour, 1hour 30 minutes etc.
- Booking for the ball machine should be made in advance. Please contact Paul Baldwin, club coach, on 0414632703 to arrange a suitable booking time. Arrangements are to be made with Paul to have the machine set-up and a quick demonstration given on usage and its capabilities.
- Payment for the rental is to be made in specific ball machine rental envelopes and placed in the payment box outside the toilets in the clubhouse.
- The renter shall be liable for any damage to the machine, or lost balls, as a result of misuse of the machine.

Ball Machine Policy

Use

- The ball machine is a training aid and is to be used to help develop skills, fitness and expertise. It is to be operated in accordance with its instructions and the direction of the club officials.
- Whilst the ball machine can be rented by a group of people no more than two people can hit balls from the machine at any one time (ie: singles or doubles use)
- Any misuse of the equipment or balls will not be tolerated and may lead to a cancellation of the current rental and bans from future rentals. Breakages and lost balls must be paid for.

Availability

The ball machine will be available:

- Whilst coaching is being conducted. Typically between 3pm and 7pm, Monday to Fridays.
- At other time by arrangement with club officials.

Access is limited to members and guests who are at least 15 years of age and who have completed a rental agreement and disclaimer.

Power:

Press this button to start the machine (hold it for 3 seconds). Please note that there is a main power switch underneath the machine. Please make sure this is on before operating your machine (I = internal battery, II = external battery or AC Adaptor). The main power switch should be switched off when transporting or storing the machine.

CONTROL PANEL

Ball Machine Policy

	Interval	Speed	Spin	Elevation
Beginner topspin	9	10	+2	55
Beginner flat	9	8	0	64
Beginner slice	9	9	-3	68
Beginner lob	13	6	0	150
I/mediate topspin	13	14	+4	50
Intermediate flat	13	12	0	30
Intermediate slice	13	15	-5	16
Intermediate lob	13	9	+2	200
Advanced topspin	16	18	+6	47
Advanced flat	13	18	0	10
Advanced slice	16	18	-6	47
Advanced lob	13	12	-3	200

*Settings may vary slightly between machines, please alter accordingly.

FEED	Feed on/off
SLEEP	Sleep mode to conserve battery while collecting balls
UP	Elevation Up
DOWN	Elevation Down
LEFT	Swivel Left
RIGHT	Swivel Right
RESET	Cancels oscillations (horizontal, vertical & 2 line drill) and returns the horizontal alignment to the center. It does not affect the spin, speed, interval or elevation settings.
INTERVAL	Increase or decrease the frequency of deliveries
SPEED	Increase or decrease the speed of deliveries
SPIN	Increase or decrease the spin level
HORIZONTAL	Horizontal Oscillation (1 = wide, 2 = medium, 3 = off)
VERTICAL	Vertical Oscillation
DRILL	2 line drill (1 = wide, 2 = medium, 3 = narrow, 4 = off).
